Dr. Kambiz Behzadi is a board-certified orthopedic surgeon in the Bay Area specializing in the surgical treatment of the knee, hip and shoulder. Fellowship trained in sports medicine, Dr. Behzadi utilizes state-of-the-art techniques and robotic joint replacement surgery to treat and accelerate the recovery process for arthritic conditions, as well as sports injuries, such as anterior cruciate ligament tears, fractures, shoulder instabilities and rotator cuff injuries.

Dr. Behzadi is a cum laude graduate of Pepperdine University with a bachelor of science in biochemistry. He received his medical degree from Chicago Medical School with Alpha Omega Alpha honors, followed by an orthopedic residency at the University of New Mexico Trauma Center. He also completed a fellowship in sports medicine, knee and shoulder reconstructive surgery at the Orthopedic Specialty Hospital in Salt Lake City.

Over the last 12 years, Dr. Behzadi has been involved in research and development of state-of-the-art technologies in joint replacement surgery, ligament reconstruction and fracture care. He is the founder of Behzadi Medical Device and has 53 US patents and three European Patents issued to his name. His primary interest is improving the efficacy and safety of surgical procedures for patients and surgeons.

Dr. Behzadi is a member of the American Board of Orthopedic Surgery and the American Academy of Orthopedic Surgeons. He's an avid swimmer and soccer player. With a keen aspiration to save animals, one of his goals is to create a dog sanctuary. In life, he aspires to his favorite Soren Kierkegaard quote: "Life is not a problem to be solved, but a mystery to be lived."
